dS
minimal change
trait change
median log(greater / lesser)
sister−pair age (Ma)
dN
median log(greater / lesser)
sister−pair age (Ma)
omega
median log(greater / lesser)
sister−pair age (Ma)
dS latency
simulated
observed
correlation of contrast with age
f, fraction of branch before transition
dN latency
correlation of contrast with age
f, fraction of branch before transition
omega latency
correlation of contrast with age
f, fraction of branch before transition
